Manufacturer Portal Expansion

Connect retailers, CAD teams, and manufacturers around one job.

OVERVIEW

Built for production-side workflow, the Manufacturer Portal Expansion supports cleaner collaboration between CAD designers, manufacturers, and retailer customers. It reduces communication friction and creates a more structured path from design intent to costing and production readiness.

KEY CAPABILITIES

- Designed specifically for manufacturers and production workflows
- Connect CAD designers, manufacturers, and retailers around jobs
- Centralize communication for custom design projects
- Improve visibility across design and production stages
- Reduce friction caused by disconnected handoffs
- Strengthen manufacturer-retailer coordination

BEST FOR

Manufacturers, CAD-driven production teams, production partners serving retailers, and businesses coordinating custom order workflow.

WORKFLOW IMPACT

Approved design -> details sheet -> manufacturer costing -> production readiness.

Available with an active CraftsmanAI subscription. Rollout and implementation scope may vary.
